Good morning licensing,

Please see my response below.

The objection to the below license application is in relation to “*prevention of crime and disorder*” and “*prevention of public nuisance*”.

We have since Spring 2023 received complaints from residents, businesses local to the area of Hadley Park East and patrons of businesses regarding large gatherings of vehicles and groups, both on Telford and Wrekin public highway and private land belonging to Euro Garages.

The aforementioned groups above have taken part in;

- Dangerous acts of driving on the highway and footpaths, causing risk to other road users and pedestrians
 - This includes racing 3 a-breast down both sides of the carriageway and footpaths
 - excessive speed on both entering and leaving the area of Hadley Park East
 - cornering at speed and performing “doughnut” skids around corners
- Damage to highways furniture, belonging to both Telford and Wrekin and Euro Garages
- Large gatherings in excess of 50+ vehicles causing alarm, harassment and distress to local residents
 - Member of said groups who have threatened members of the public through intimidation and harassment
 - Meets have displayed no care for local residents through excessive loud and repetitive revving of engines
 - Large deposits of litter from groups that visit the area

Whilst it is understood that the majority of these complaints take place on a highway with vehicular ASB, these groups and owners of the vehicles themselves attend that garage requesting the license for custom, whether that is the purchase of fuel and or food and some of these issues originate from the garage forecourt to the front and rear.

It is felt that if these groups that continue to visit this area and are able to purchase alcohol, this could have knock on effect either through increased risk to drink driving and its associated risk to road users and members of the public or others that form a part of the group becoming intoxicated and becoming more harassing in nature to

1

local residents and businesses, not to mention that increased potential for littering that is having a blight on the local area and is impacting local businesses and their custom.

I hope the above highlights some of the issues that are of concern in regards to the licensing application in relation to Asda at Hadley Park Ease.

Many thanks

Good afternoon,

Thank you for your representation to this application.

Please can you clarify which of the four licensing objectives you are making the representation under:

- Prevention of crime and disorder
- Public Safety
- Prevention of public nuisance
- Protection of children from harm

2

Can you also provide some more information regarding your representation and how it links to the licensing objectives, and if you wish to provide any additional evidence to support your representation you can do this at this stage so that it can be included in our report. Your representation will then be put before a Licensing Sub Committee who will look at the information provided and make a decision on the application.

You will be contacted by democratic services in due course with details of the date of the hearing.

Kind regards,
Helen

Morning Licensing,

This is a quick email just in regards to the application for a licence at the Asda garage (Euro Garages) in Hadley Park East. Apologies, I do not have a reference number for this!

To give a bit of background on why I am writing. The area has attracted a noticeable amount of ASB in the past 6-8 months, granted it is more inline with vehicular ASB and gatherings causing nuisance.

The residents and businesses have had considerable issues in terms of harassing and distressing behaviour, damage to property fencing and a considerable impact from littering by these groups. A drop in some of the issues has occurred following some intervention from the ASB team and local SNT, I will however like to add an objection to the license.

3

The problems do still persist on occasion through the weekend in terms of gatherings becoming loud and boisterous in their behaviour. These incidents take place on the highway and also within the garage and parking areas within Hadley Park East.

There is already 2 licenses selling alcohol within the area, The Fallowfield and Hadley Park House Hotel. Granted, this is from a bar, but some of the residents have already passed on concern that being able to purchase alcohol from the garage could have a knock on effect on the groups that continue to gather nearby.
