Subject: RE: New premises licence application Asda Hadley Park

Dear Licensing Team,

Thank you for consulting the Health Protection Hub on the new premises licence application for **Asda Express, Hadley Park East, Hadley, Telford, TF1 6QJ**.

Whilst we appreciate that protecting and improving Public Health is not a licensing objective, alcohol related harm is a concern. The proposal increases access to alcohol, potentially by those vulnerable to and at risk of alcohol related harm.

We recognise that licence holders are generally supportive of the need to address health issues relating to alcohol and we are pleased with the proposals set out in the applicant's operating schedule including:

- Use of CCTV and maintenance of tapes for 31 days.
- Implementation of a Challenge 25 age verification scheme.

We would encourage the applicant to consider:

- Ensuring security cameras have point of sale coverage.
- Maintenance of an Incident log that includes a Refusal Register.
- Training to include awareness of proxy sales, dealing with disorderly behaviour, managing conflict, and understanding alcohol harm.

This is not an objection to the granting of a licence; we would ask that the applicant consider these comments.

Best regards,

Sonya Durkin-Jones
