

## Council Plan 2022/23 – 2025/26

“In July 2019, we adopted a new vision for the council to “protect, care and invest to create a better borough” together with a series of commitments to deliver that vision.

“A lot has changed since then, the pandemic hit and as a council we’ve spent two years at the forefront of the Covid response, proudly protecting and caring for our residents.

“As we get back to a more normal way of life, the council plan has been updated to reflect the huge amount that we’ve already delivered, recognise the impact of the pandemic and to refresh our priorities so that they are right in a post pandemic-world.

“We have huge ambitions for the borough and as an award-winning co-operative council, we’re on the side of our residents. Our approach will always be informed but their views and voices. Together we will continue to create a better borough.”
