

Financial Monitoring Report

“Councils across the country are facing the perfect storm in the coming months. Inflation and the spiralling cost of living means that our costs are increasing at a time when more and more people need our support.

“Sound financial management over many years means that Telford & Wrekin Council are in a strong position to manage these significant challenges. We are currently expecting the budget to be very tight at the end of the year. We are not immune to the economic shock being felt across the country and we will continue to monitor and review our position.”
