

Telford and Wrekin ageing well draft strategy

"We want people in Telford and Wrekin to live well and independently for longer, as they approach later life.

"Last year, through an Ageing Well pre-consultation with local organisations, we have asked residents over the age of 50 to tell us what would help them to enjoy a healthier, happier life.

"Over 2,800 people took part in the pre-consultation and shared their views on a range of themes (such as financial security, transport, digital inclusion and many others) that impact on their wellbeing as they grow older.

"We will now run a borough-wide consultation to get feedback on the Ageing Well Strategy, to make sure the plan developed meets people's aspirations to live well for longer in Telford and Wrekin.

"The Ageing Well Strategy consultation will support our council, NHS Shropshire, Telford and Wrekin and key local partners to better plan for the future for an increasing ageing population in our borough."
