

Long term empty property strategy 2021-2026 update

“We want our neighbourhoods to be safe and attractive places to live but empty properties can attract anti-social behaviour and have a serious impact on local communities.

“We will continue to work with our residents to tackle the blight that these empty properties cause.

“A sustained focus on bringing long term empty properties back into use is enabling us to tackle some of the most challenging properties which are impacting on our communities as we as improving the overall condition of housing in the borough and increasing the affordable housing choice for our residents.”
