Children's Safeguarding & Family Suppo	ort									
		CIC Placements	17,556,758	24,557,949	7,001,192			7,001,192	0	The very significant variation compared to the placement costs budget is predominantly driven by residential placements. In particular, in the first few months of this financial year there were a number of new residential placements, a number arising from placement breakdowns, combined with
										some large increases in existing placement costs driven by increasing challenges and complexity presented by young people requiring specialist residential care. Step-down plans are being pursued for a significant proportion of the children in residential placements. In addition some of the pressure in this area is offset by an increased contribution from the NHS towards elements of the placements costs where the young people are presenting with health needs (see 'Health funding' line below).
		Post 18 Staying Put & Leaving Care Support	542,610	479,051	(63,559)			(63,559)	0	These costs are made up of Leaving Care, Shared Lives and Staying Put placements for young people who have previously been in care who have since turned 18.
		Staffing - salaries	15,975,202	14,895,295	(1,079,907)			(686,989)		There are a number of vacancies across the service, resulting in this forecast underspend, although this and service pressure are leading to an increasing need to employ agency staff, with a higher average cost compared to
		Staffing - Agency Costs	160,400	2,271,565	2,111,165			2,111,165		directly employed staff. As noted above a combination of vacancies and service pressures has resulted in significant agency costs being incurred. In addition to individual agency workers, two agency teams have been procured, in order to provide the capacity needed to meet the current level of resource requirements and to enable statutory safeguarding requirements to be delivered.
		Staffing - Family Safeguarding Model	0	350,837	350,837			350,837		Grant funding contributes to the costs of the family safeguarding initiative (see income from grant and reserves below).
		Grant funding drawn down for Family Safeguarding Project	(119,820)	(271,093)	(151,273)			(151,273)	0	
		Reserves drawn down for Family Safeguarding Project	(30,692)	(39,376)	(8,684)			(8,684)	0	
		Contribution from Reserves	(664,131)	(776,311)	(112,180)			(112,180)	0	Includes additional funds drawn down for emergency duties team. Following the receipt of grant monies in relation to Strengthening Families, a reduced sum was required from reserves in order to fund expenditure
		Children with Disabilities	1,198,758	1,632,301	433,543			433,543	0	This area is under financial pressure, in part because of recent cost increases from providers of support. A number of initiatives are underway to ensure that cost effective and appropriate support is provided to families of children with disabilities. A Direct Payments Officer has also been appointed and a robust review of current payment levels and the level of balances in fair share accounts undertaken to ensure that the personal budgets provided to families are at an appropriate level.
		Children in Care Adoption Allowances	291,550	207,257	(84,293)			(84,293)	0	Payments for allowances were lower than budget available.

			2022/23 Reve	nue Budget Varia	tions over £50,000					
Servie	Description	Description	Budget	Outturn	Variation	Capital & Pension charges	Public Health	<u>Service</u>	Other £	Comments
		Joint Adoption Service Health Funding	774,637	1,241,903 (3,621,660)		τ.	T.	467,266 (3,221,660)	0	The significant variance in forecast costs mainly arises from a number of children being placed with adopters from external agencies, rather than within the regional adoption agency ('Together for Children' or T4C) that T&W is now part of. Such external placements come with a substantial one-off cost (in the region of £50K for some placements). In addition there is an ongoing budget pressure in the Joint Adoption Service ('JAS') for Shropshire and T&W, arising from a staffing increase some years ago that was intended to be offset by increased adoption allowance income. In practice, hasn't increased to a sufficient degree to offset the cost increase. In recent years, this has been mitigated by savings from staffing vacancies during the year, but in 2022/23 was instead exacerbated by retention payments to social workers in JAS. Following the marked increase in income in 2021/22, the increased engagement with health colleagues has continued and resulted in a very significant increase in contributions towards placement costs. The increase in placement costs in 2022/23 shown above, partly driven by the complex needs of children and young people, including health needs, is now being reflected in increasing health contributions.
		Independent Review - Staffing	737,892	666,335	(71,557)			(71,557)	0	Tenected in increasing nearth contributions.
LAC 40 D		Independent Review - Under £50k	170,629	190,441	19,812	2 27- 11-		19,812	0	
IAS 19 Pensions Capital Charges			117,120	2,975,420 (138,437)	2,975,420 (255,557)	2,975,420 - 255,557		0	0	
Under £50k			3,610,833	4,708,384	1,097,551			1,094,613	,	Main contributors to the variance are projected legal costs, childminder fees, taxi costs, section 17 costs (expenditure to support children in need), assessment fees, building adaptations for children with disabilities and expenditure on families with no recourse to public funds.
Total Children's Safeguarding & Family	Support		39,921,746	49,329,861	9,408,115	2,719,863	-	7,078,233	(389,980)	
Education & Skills										
	Early Years & Childcare		52,515	(38,617)	(91,132)			(91,132)		Flexible use of government grants has been a large contributor to the underspend in this area.
	Home to school transport		3,103,773	3,833,043	729,270			729,270		There is an existing pressure in this area. A large part of the overspend in 2021/22 was driven by a sharp increase in taxi costs in September 2021, which continued to impact upon 2022/23. In addition there has been a significant increase in the number of children and young people entitled to transport assistance from September 2022. A number of initiatives have been undertaken to address the cost pressures impacting upon home to school transport, including: • Work to develop market – given lack of competition and increased costs of transport / taxis. • Seek continued efficiencies by reviewing routes and retendering and moving away from high cost provision. • Increase the take-up of Personal Transport Budgets to encourage alternative transport options (and enabling Dedicated Schools Grant (DSG) to be utilised for high needs pupils). • Significantly increase numbers of young people receiving travel training. • Providing minibus transport rather than taxis where possible and retendering of taxi contracts. These initiatives have already had a positive impact upon 2022/23 costs and will deliver a full financial year impact in 2023/24.
	Post 16 transport		445,686	605,835	160,149			160,149		There is an existing pressure in this area, due to a number of post 16 young people with high needs needing individual transport arrangements. As with pre 16 transport this pressure has been supplemented by sharp increases in taxi costs. Individual cases are being reviewed and where possible alternative, more cost effective transport options are being developed.
	Arthog		258,061	388,301	130,240			129,990		Following the return to normal operations after the ending of covid restrictions, there have been some cost pressures impacting upon Arthog's provision.

			2022/23 Reve	enue Budget Variat	ions over £50,000					
Servie	Description	Description	Budget	Outturn	Variation	Capital & Pension charges	Public Health	Service £	Other f	Comments
	Skills		833,633	£ 538,940	£ (294,693)	±	İ	£ (295,826)	1,133	During the period of covid restrictions, some face-to-face activities had to be restricted and there was some doubt whether government grant might have to be repaid. However now that it has been confirmed that this grant will not be clawed back, £300,000 can be applied to the appropriate service areas. With other areas of the service out turning around budget overall, this application of grant has led to the underspend identified.
	Insurance		(10,228)	65,181	75,409			75,409		Contributions from schools towards insurance costs have reduced as more schools have converted to academies and thus don't buy into council insurance cover.
