Wards Affected:	All Wards
Key Decision:	Not Key Decision
Forward Plan:	Not Applicable
Report considered by:	SMT – 14 January 2025 Business Briefing – 23 January 2025 Cabinet – 13 February 2025 Full Council – 27 February 2025

1.0 Purpose of Appendix

- 1.1 To set out the planned building capital maintenance programme priorities for 2025/26.

2.0 Background

- 2.1 The Asset Management Plan and associated data on property (i.e. condition, suitability, sufficiency, access and asbestos) informs the Council's planned building capital investment programme. The Council has completed condition surveys for operational properties used for the delivery of its services, with each condition survey identifying works in four categories. These surveys are updated on a rolling programme each year. The Council's Asset Management Plan has identified a condition backlog for the next 5 years of approximately £8m for operational

properties (excluding schools) and £17m for schools/educational properties. The figure for condition backlog for schools has reduced over recent years, mainly due to the investment made into them.

During 2025/26 more in-depth surveys will continue to be undertaken within operational properties and schools that are under the control of the council. Particular emphasis will continue to be given to health and safety ensuring that the occupants of our buildings are safe.

The planned building capital investment programme as identified in **Schedule A** is set in accordance with the approved framework for prioritising condition backlog as included in the Asset Management Plan. The level of investment included in the Capital Programme of Works 2025/26 is £1,792,700 for Educational assets and £700,000 for all other operational assets. The budget allocations do not take into account the capital investment relating to expansion of schools, which is held as a separate budget. In addition to the above capital allocations, schools are also in receipt of Devolved Formula Capital (DFC) which is used fundamentally for maintaining and investing in the school building stock on a day to day basis.

3.0 Summary of main proposals

- 3.1 To identify the proposed planned building capital maintenance programme for financial year 2025/26, in accordance with Medium Term Financial Strategy 2025/26 to 2028/29.

4.0 Alternative Options

- 4.1 The alternative to carrying out the planned building capital maintenance programme is to do nothing and incur no expenditure. However, the Council would run the risk of buildings condition potentially worsening and ultimately requiring emergency works to ensure the safety of building occupants. Also with regard to schools capital maintenance funding, the government expects funds to be used in line with published guidance and it is required to report on this expenditure to the Department for Education on an annual basis.

5.0 Key Risks

- 5.1 As stated under Financial Implications section below, confirmation of the 2025/26 education capital allocation for maintenance has not yet been confirmed. Adjustments to the programme may need to be made if the allocation is below what is expected.

6.0 Council Priorities

- 6.1 Effective management of the Council's planned building capital maintenance programme helps to support the delivery of all Council priorities as our buildings are used for working, learning, and providing services to all communities within the Borough.

7.0 Financial Implications

- 7.1 Confirmation of the Education capital allocations for 2025/26 have not been received and are expected to be notified shortly by the Department for Education. Appropriate adjustments to the capital programme and the programme of works (**Schedule A**), estimated at £1,792,700 will be made accordingly to ensure spend is within available funds.

Budgetary provision for the Corporate Planned Building Capital Maintenance Programme £700,000 programme of works for 2025/26 is contained within the capital programme (detailed in **Schedule A**).

8.0 Legal and HR Implications

- 8.1 There are no direct legal implications arising from this report however any repair/maintenance works will be subject to competitive procurement to ensure best value is achieved for the Council by complying with the Council's Contract Procedure Rules and any applicable statutory requirements. In addition, legal advice must be sought in relation to any Health and Safety or other similar matters should they become apparent during the year.

9.0 Ward Implications

- 9.1 The Wards in which proposed works are to be undertaken are detailed in **Schedule A**.

10.0 Health, Social and Economic Implications

- 10.1 Maintaining buildings ensures that Council Services are delivered efficiently and with service continuity. Many of the key services are delivered from the Council's property portfolio and are the first key point of contact with our customers.

11.0 Equality and Diversity Implications

- 11.1 Where possible, as part of the planned building capital investment funding, improvements to accessibility will be carried out. Where improvements to existing facilities are being undertaken, Equalities Issues (i.e. baby changing facilities) are also included as part of the scheme. This allows the Council to increase access to public buildings for people with disabilities.

12.0 Climate Change and Environmental Implications

- 12.1 Environmental improvements are incorporated into schemes where appropriate, in an aim to reduce the Council's carbon emissions in accordance with the Council's Emergency Climate Plan.

13.0 Background Papers

- 1 Asset Management Plan

14.0 Schedules

- A Education and Corporate Planned Building Capital Maintenance Programme 2025/26
