Hi team

I would like to request if you can accept the tints as Factory Fitted to be used. TH

One reason would be because drivers spent a lot of monies on these cars to keep a high standard of taxi to make them and represent the company as a clean and professional companies appearance, drivers are first appearance of the company.

Second would be the safety of people i.e children, adults, factory fitted requirements do have to consider these things also safety of people act.

So a humble request if you can accept standard factory fitted STAMPED window

Thanks you
Mobeen
