Hi team

I would like to request if you can accept the tints as Factory Fitted to be used. There is a couple of reasons.

One reason would be because drivers spent a lot of monies on these cars to keep up with the regulations and to put out the companies appearance, drivers are first appearance of the company.

Second would be the safety of people i.e children, adults, factory fitted requirements have to be passed too so

So a humble request if you can accept standard factory fitted STAMPED windows would be amazing.

Thanks you  
Mobeen
